

ARCHIT SANGAL

Graduate Student - International Institute of Information Technology Bangalore

📁 Portfolio in [architsangal](#) @ [architsangal2000@gmail.com](#) ☎ +91 9548697992 🌐 [architsangal](#)
📁 LeetCode ([architsangal](#)) 📁 CODEFORCES ([architsangal](#)) 📁 GeeksforGeeks ([architsangal](#)) 📁 CodeChef ([architsangal](#))

EXPERIENCE

IIITB Summer Of Code | [Mentor](#)

📅 May 2022 - August 2022

- Creator and Team Lead of an open source project, [FoodFast](#).
- Accepted Project for [IIITB Summer of Code](#) in 2022.
- Aims at reducing the waiting time of orders.
- This app includes both **user-side and manager-side functionalities**.
- Guided and mentored **2** students in the above program.

E-Health Research Center (EHRC) | [Summer Intern](#)

📅 May 2021 - August 2021

- [EHRC](#) collaborates with [NIMHANS](#) under [e-Manas](#), for National Tele-Mental Health Programme, announced by Union Finance Minister Nirmala Sitharaman during her Budget Speech in Parliament.
- **Designed and implemented** an application with a team of developers for doctors to connect remotely with patients.
- Worked as full stack intern and contributed in designing using [Figma](#), Designed a back-end server using [Spring Boot](#) and integrated it with web pages developed using [Angular](#), [Socket](#), [WebRTC](#).

IIT Bombay (FOSSEE Animations) | [Summer Fellowship](#)

📅 April 2020 - July 2020

- Made 4 lecture notes with animation on the topics related to Linear algebra. i.e., [Linear Transformations](#), [Four Fundamental Subspaces](#), [Orthonormal Bases](#), [Gram Schmidt Orthogonalization Process](#).
- For making the animated videos, manim and python was used. Lecture notes can be found [here](#) and code can be found [here](#).

PROJECTS

Portfolio | [Flutter](#), [Rive](#), [GitHub Actions](#), [GitHub Pages](#)

📅 November 2020 - Present

- Fully **responsive webpage**. Code - [here](#); Deployed Project - [here](#).
- Designed and implemented from **scratch**. A web 2.0 project.
- Easy to maintain as it uses [GitHub Actions](#), for deployment.

Question Paper Management System | [Spring Boot](#), [React](#)

📅 November 2022 - December 2022

- Team project that was built to demonstrate **micro-services architecture**. It can be found [here](#).
- Created three microservices. Firstly, **login and registration** for the authors. Second, to carry out **CRED operations** on the question bank (including **Versioning System**, to keep a track of the updated and deleted questions). Lastly, for **generating the question paper** according to the constraints provided.
- Made a **stub demonstration website** to test microservices.
- **Eureka Server** was used to register and discover the services, and **Hybernate** as the JPA implementation.

Android Flight Booking System | [Native Android](#), [Firebase](#), [Java](#)

📅 November 2019 - January 2020

- Developed a fully functional flight booking system.
- It included both the **user and administrator applications**.
- It can be used to book, cancel, or update fictitious flight bookings.

* Mostly, text like [this](#), are links, do check them out.

* For an exhaustive list of projects, refer Project Portfolio [here](#), or my GitHub [here](#).

EDUCATION

Integrated M.Tech @ IIIT Bangalore

📅 August 2019 - July 2024 CGPA : 3.65/4

- Branch — Computer Science and Engineering

ACHIEVEMENTS

- Honoured by **Dean's Merit List for academic excellence**;
- Secured **Rank 1** in [AskReddit Troll Question Detection Hackathon](#) out of 22 teams (based on Machine Learning).
- Secured **Rank 1** in [Car Accident Prediction Hackathon](#) out of 34 teams (based on Natural Language Processing).
- Secured **Rank 8604** in **JEE Main**; **Rank 16406** in **JEE Advanced**; **Rank 159** and **Other State Rank 6** in **UPSEE**; **Rank 16** in **KIITEE**; **Rank 2727** in **VITEEE**;
- **CODEFORCES** Rating of 1465, specialist. **CodeChef** Rating of 1898 (4 star coder).

COURSEWORK

Data Structure and Algorithms
Design and Analysis of Algorithms
Operating System
Software Engineering
Database Systems
Computer Networks
Computer Architecture

PROGRAMMING LANGUAGES

Dart • Java • Python • C • C++ • JavaScript
LaTeX • MySQL • PostgreSQL • C#

SKILLS

Flutter • Firebase • Google Analytics • GraphQL
Native Android • Spring Boot • Agile • Scrum
GitHub Actions • GitHub Pages • Git • Three.js
JUnit • blender • docker • Linux • Ubuntu

EXTRACURRICULARS

Member of Zense, Developers Club of IIITB

📅 January 2020 - Present

- Zense promotes open source culture.
- Worked on several projects for the club and
- Organized a hackathon with a team, for over 100 junior devs and guided them.

Open Source Contributions and Issues

📅 February 2022 - April 2022

- Have contributed regularly to open-source organizations. E.g., GSoC Mentor Organization, [Palisadoes Organization](#).
- Performed Unit Testing. Fixed Bugs. Suggested and Implemented Features in above
- Issues can be found [here](#) & Pull Requests [here](#)
